

## THE GAZETTE.

JANESVILLE, MONDAY, FEBRUARY 17.

### THE SIBERIAN OUTRAGES.

It seems impossible that in this age of the world's progress in christian civilization there should be committed the inhuman outrages that have recently taken place in Siberia. The sickening details of the horrible murder of Madame Skida by the governor of the political prisons at Kara, have already appeared in the Gazette. That such a tragedy should be permitted by the Russian government is a dark blot on that empire, and it is strange—one of the strangest things of the time—that the Russian government does not move in the direction of abolishing the system that begets the brutalities. The whole civilized world condemns such barbarism, and more especially because they exist in a country which claims to be governed by christian rulers.

Mr. Kennan, when in Milwaukee the other day, where he gave his powerfully interesting lecture on the "Russian Political Exiles," said to a reporter:—  
Of Madame Skida, the principal victim in this tragedy, I know little as she was sent from St. Petersburg to the mines of Kara after leaving Russia in 1886. I believe, however, that she was sentenced to a long term of some time in the early part of 1887. It seems appalling to think that this poor creature was deliberately flung to death, though it would take, perhaps, but a moderate infliction of the terrible knout in the case of a feeble and defenseless woman. The hardest and strongest men sink beyond the possibility of rallying under eighty blows, and you can imagine the effect of such a barbarous punishment when inflicted on a delicately nurtured and sickly woman. The man who committed this outrage must have been an extraordinary brute, even for a Russian official. I have seen brutes in Siberia in a state of partial intoxication, who might do it, and it is possible that this fellow may have been under the influence of liquor when he ordered this torture inflicted.

Women guilty of no crime are sent to the mines at Kara without a trial and without any evidence of their guilt. Among these exiles are many women of education and refinement. They are torn from their children and are not only sent to the Kara mines for a term of years or for life, but they are degraded in a manner which is revolting to the moral sense of civilized humanity. No deeper pathos ever touched the heart than that which comes from the mines at Kara giving the details of the suffering of womanhood under the barbarities sanctioned by the Russian government.

Will these atrocious things ever stop? Mr. Kennan thinks they will, and that its accomplishment will be brought about by the interposition of other governments. Here it is twenty centuries after Christ and the Kara mines! No crimes committed in Judea before the crucifixion outdo the barbarities of those coming from Siberia. If Russia can be brought to some kind of accounting for these appalling outrages, the civilized world would rejoice.

### HOPE FOR UTAH.

There is more hope for Utah than in the fact that Salt Lake City has been carried by the Gazette. Senator Edmunds has introduced a bill which provides for the establishment of a public school system in that territory. The argument for the bill is that while the Gentiles have captured Zion they are still very far from having any such control of the territory as will enable them to correct the densely ignorant condition of the people outside of one or two cities. It is upon this ignorance that the hierarchy relies. Since an actual effort to suppress polygamy began to be made, it has been abundantly shown that liberalism can conquer Mormonism without bloodshed if it have a fair chance. But so long as mere numbers are permitted to be the test of political power, and so long as the church can control the schools and the public lands, the fight will be hard and hot. A good, sufficient public school system with a compulsory attendance law, to make sure that it does its work, and such an amendment of the land laws as will effectively prevent Mormon missionaries from gambling away the public domain for the benefit of their church, will soon put an end to that peculiar "religion" in the name of which many hideous crimes are committed.

There has been something peculiar in the Utah case. For thirty years or more there have been gross violations of law and a total disregard of common decency among the Mormons on the marriage question. The Edmunds law enacted some six years ago has improved matters in some respect, but still polygamy has its being and rules in an austere hand in its dominion. The United States government for many years seemed afraid to put the Mormons under subjection. They were allowed to live and rule as they pleased, and even a Mormon having six or eight wives was allowed a seat in congress as a delegate from Utah. Of course this will never be repeated, and there is hope should the Edmunds school bill become a law, that the Mormons will soon lose their degrading power.

Governor Hoard has appointed Frank L. Gilson judge of the superior court of Milwaukee which fills the vacancy caused by the resignation of Judge Noyes. This is an important judicial office, and there is no doubt that Judge Gilson will fill it well. He is a young man, being only 43 years old. He is partly a product of Oberlin college, and came to Wisconsin in 1870, and began the study of law in the office of the late L. F. Frieby, who was then located at West Bend. On being admitted to the bar in 1872, Mr. Gilson decided to locate at Ellsworth, Pierce county. He soon established a lucrative law practice, and was elected district attorney of the county in 1874, which office he held until 1880. He represented Pierce county in the legislature

In 1881 and 1882, and during the last named year he was elected speaker of the assembly. In 1883 Mr. Gilson went to Milwaukee and formed a law partnership with the late L. F. Frieby.

In addition to the blessings which Providence has been heaping on the Republicans recently they have the pleasing reflection that Grover Cleveland will be nominated for President by his party in 1892.—*St. Louis Globe-Democrat.*  
There is always something of a sweetening nature for the deserving. As a rule the democrats have played in the hands of the republicans for many years. They seem to know what the republicans want and what will help them in time of need. The republican party has been living off the blunders of the democratic party for a long time, and the prospects are that it will continue to thrive for years to come on the same fodder.

There is some sense and practical wisdom in the suggestion that Uncle Sam would do well before throwing open more western land to squatters and boomers to tide a we until the area already half-settled shall be developed and the population anchored. It is no exaggeration to say that nine-tenths of those enthusiastic fellows whose rushing into newly-opened countries are speculative wanderers, who have jumped their own holdings, in many instances leaving behind them obligations that should be met. These land-booming operations are a curse to everybody but the speculators.

Senator Evans, of New York, of whom so much was expected, has made such a small mark in the senate that there is no thought of his re-election. Tom Platt, Warner Miller, Secretary Tracy, Cornelius N. Bliss, Chauncey Depew, and Congressman Selden are named as among the eligible list. Mr. Evans has been a disappointment to himself and friends. While he stands as one of the greatest lawyers in the country, he does not seem to take much interest in legislation. He is a power in a court room but almost a cipher in the senate.

### MR. EDISON'S PHONOGRAPH.

It Addresses the Electric Convention at Kansas City.  
KANSAS CITY, Mo., Feb. 17.—At the session of the electric light convention it was announced that a phonograph from Mr. Edison would address the convention on the subject of his fine-wire system of distribution. The phonograph was produced and when put in operation uttered Mr. Edison's voice, having been unable to prepare the address. The voice from the phonograph was loud, and every word was distinctly heard throughout the hall.  
The following officers were elected and the convention then took a final adjournment: Warden J. Perry, of Providence, R. I., president; Edward W. Maher, of Albany, N. Y., first vice-president; C. L. Edgar, of Boston, second vice-president; C. R. Huntley, of Buffalo, N. Y., chairman of the executive committee; Allan V. Garrett of New York, secretary.

### TRAINS IN COLLISION.

A Passenger Train on the Wisconsin Central Run Into by a Freight.  
ASHLAND, Wis., Feb. 17.—While the Bessemer & Ashland passenger train on the Wisconsin Central road was sliding down a grade, a freight train, loaded with logs came flying down the grades, and plunged into the rear coach of the passenger train, wrecking it. The wreck at once took fire from the lamps. For a time it was feared four or five passengers who were wedged in the wreck, would be burned to death. After half an hour's hard work, the prisoners were rescued. A Mr. Zimmer, of Mineral Point, who travels for a Milwaukee firm, had a leg badly bruised and received other injuries. J. C. Miller, of Lonsdale, was severely bruised. C. N. Lattimer, a traveling man, was injured internally. Miss Wandura and Miss Mercer escaped with scratches. The cause of the runaway of the flat-car is a mystery. The injured were brought here.

### BLOCKADED AGAIN.

Heavy Snow Storms Along the Central Pacific Railroad.  
TRUCKEE, Cal., Feb. 17.—It is snowing steadily, with a heavy wind from the West, and all signs are favorable for a repetition of the blockade. No. 1 train is stalled at Casado, and about 2 p. m. they succeeded in bringing a section of three cars to Summit. Snow shovellers are being sent up to the points most needed. The rotary is west of the stalled train and the cyclone broke down at tunnel No. 13. The plows are running constantly to prevent another blockade.

DURHAM, Cal., Feb. 17.—A snow storm has been raging here during the last thirty hours and still continues. The Central Pacific is blocked again.

### FIRE IN AN INSANE ASYLUM.

A Wing of an Arkansas Institution Destroyed—No Lives Lost.  
LITTLE ROCK, Ark., Feb. 17.—One wing of the insane asylum two miles west of town burned this morning. The loss is between \$30,000 and \$40,000, without insurance. The fire, the origin of which is a mystery, was first discovered in the boiler-room, which, together with the engine-house and pump-room, dry-house, kitchen, bakery, pantries, and bath rooms, were destroyed. The 500 patients were removed to the grounds, and, although an indescribable panic prevailed, there was no loss of life.

### JOHN STEPHENSON VERY ILL.

New York, Feb. 17.—John Stephenson, the well-known car builder, now 81 years old, had an attack of influenza some time ago which culminated in pneumonia, and he was very ill. He thought he had fully recovered and left his home in New Rochelle and came to his shops in this city. He was not as well as he thought, and has suffered a relapse. He is very low, and it is feared he can not live much longer.

Opposes the Sault Ste. Marie Road.  
OTTAWA, Ont., Feb. 17.—In the railway committee of the Dominion parliament, Sir John Macdonald opposed the bill to authorize the construction of a railway from the Sault Ste. Marie to Hudson Bay, on the ground that it might damage the Winnipeg & Hudson Bay railroad project.

## THE RECORD OF CRIME.

The White Caps Again at Their Outlawry at Rockport, West Virginia.

### BRUTAL TREATMENT OF A WOMAN BY OUTLAWS.

New York Has Two Bloody Murders in One Day—Sundry Crimes Elsewhere.

WHEELING, W. Va., Feb. 17.—The Redman and White Cap spirit seems to be coming to the front again in certain parts of this State. At Rockport, Charles Smith and his wife were both taken from their home and unmercifully beaten on the back with hickory switches and compelled to leave the county and the State. The family passed through Parkersburg yesterday and told a horrible story of their suffering and treatment.

The wife says that after whipping her husband the mob caught her while she was trying to escape from the house with their children and tied her to a tree. She was then beaten until the blood came. Mrs. Smith says the whole cause for the outrage was her resistance of the improper solicitation of a man of her neighborhood. At Clay Court House a woman was also driven away by a mob, who visited her house, firing guns and revolvers, and tied a note of warning to her door.

### STABBED TO DEATH.

One Colored Man Kills Another at the Latter's Residence.

NEW YORK, Feb. 17.—James H. Miller, a colored man, was stabbed to death while entering the hallway of his residence on Third Avenue by Morris Miller, another colored man. The latter had been lying in wait for his victim for some time. The men were not related to each other, and while there are strong indications that murder was intended, the murderer made a mistake and James H. Miller received the blow meant for his brother-in-law, William H. Lawrence. After a fight against which Lawrence had information, was the motive for the assault.

Isaac Jacob, a peddler of candles and jewelry, lured Herman Rogozinski, an express man, from his home into a stable at an early hour and shot him dead. He then entered the house of the murdered man and seriously wounded the latter's wife, when pursued by the son of the murdered man shot him. Jacob, it is alleged, has several wives living, and because a niece of Rogozinski refused him took revenge on the entire family.

### RUINED BY HIS WIFE.

Mrs. Lippincott Wrecks Her Husband's Fortune by Forgery.

PHILADELPHIA, Pa., Feb. 17.—A sensation has been created here and in South Jersey by the discovery of a large number of notes with the forged signature of Edward Lippincott, of Medford, N. J., who is the proprietor of the Union hall, Atlantic City. The amount runs up in the thousands, and banks, firms, and individuals are the victims. Lippincott says that his wife is the forger. It was also discovered that the property of the Haines, a sister of Lippincott, worth \$5,000, had been mortgaged to the extent of \$1,900 by Mrs. Lippincott. Among the victims in this city are John Wamaker, Sharpless Brothers, J. & J. Dobson, and other large firms. The Lippincotts are well known in society and are of Quaker descent. Lippincott is ruined.

### THE SAWTLE MURDER.

Crowds of Curiosity Seekers Visit His Temporary Grave.

ROCHESTER, N. H., Feb. 17.—The place where the remains of Hiram F. Sawtelle were uncovered has been visited by tremendous crowds from all over the country. The examination of the body by County Solicitor Kivel and Drs. Ham and Sullivan of Dover shows a thickness of flesh around the finger nails and a peculiar twist of the ankle, both of which points were telegraphed as belonging to Hiram Sawtelle. It is now thought certain that the murder was committed in New Hampshire. A logger named John Willey says he passed the carriage containing Hiram and Isaac in the pine woods between here and East Rochester and soon after heard three shots.

### DEPLORED BY THE PRIESTS.

The Recent Outrage at Hull Denounced by Catholic Clergy.

OTTAWA, Ont., Feb. 17.—A pastoral letter from Archbishop Duhamel was read in all the Catholic churches here as well as in the Catholic church at Hull. The Archbishop expressed regret at the recent outrage in Hull and said such occurrences could not be countenanced by the church in Canada. Likewise the pastoral enjoins the faithful to use their influence to prevent a recurrence of the troubles of Tuesday night, when Miss Wright, with her band or evangelists, visited Hull. The Rev. J. W. Farries, pastor of the Knox church, in a sermon denounced the Hull roughs. He advised resistance if Miss Wright is molested.

### HE GAVE BOGUS RECEIPTS.

A Clerk in a City Treasurer's Office Steals Several Hundred Dollars.

BUFFALO, N. Y., Feb. 17.—About four weeks ago it was discovered that a clerk named Hoffeins, in the city treasurer's office, had given his father a receipt for \$400 taxes and put the money in his pocket. His father, on discovering the fact paid the money again, although he held a receipt for the entire amount. It now appears that Hoffeins had secured possession of a stamp and gave receipts to various parties to the amount of \$500. He was arrested and has been admitted to bail. The friends with whom he lost money in gambling houses promise to make the shortage good.

### FOUGHT FOR LOVE.

Two Ladies Engage in a Duel Over a Man.

NEW YORK, Feb. 17.—It is as just been learned that Amelia Bell and Louisa Helyard, members of the lady feccers' troupe traveling with "The King's Fool" company, fought a duel with appliers in one of the parlors of the Metropolitan hotel yesterday. In the first bout Louisa was wounded in the right shoulder; in the second she was scratched three times. That ended the affair. The girls are rivals, both being in love with a certain society man.

### SLAIN BY A NEGRO.

An Aged Citizen of Chester, N.C., Shot Down Without Provocation.

CHARLESTON, S. C., Feb. 17.—John Hood, an aged gentleman of Chester, N.C., was shot down by a negro.

this State, was shot last night. His body was found in a ditch this morning. Suspicion points to a negro named Green Brown. Brown was arrested, and an effort was made by Hood's family and friends to lynch the negro, but other citizens guarded the jail. Brown was taken to Columbia on an order of the Governor of the State to prevent trouble.

### ROCHESTER'S TREASURER SHORT.

It Is Said That He Has Used \$130,000 of the City's Money in Speculation.

ROCHESTER, N. Y., Feb. 17.—City Treasurer John A. Davis has been discovered to be a defaulter in the sum of \$130,000. He confesses a shortage of \$60,000 and he and his bondsmen are trying to fix it up. Strong efforts are being made to keep the matter quiet. Davis has been living at an extravagant rate, and recently became half owner of a large hotel, besides being mixed up in other speculations. His salary was \$4,500.

### Killed His Wife and Himself.

COLUMBUS, Ohio, Feb. 17.—William Dohn, a tinner and dealer in groceries, while drunk went to his house and shot his wife, inflicting severe wounds in her head. He then put a ball through his brain, killing himself instantly. The deceased was 35 years old. Jealousy, it is supposed, was the cause of the deed.

### Suicide of an Anarchist.

CHICAGO, Feb. 17.—James Hlavac, a saloonkeeper at 798 West Eighteenth street, committed suicide Saturday morning. The deed was done with a revolver. Hlavac had been long despondent over his family affairs, and he had also felt greatly depressed over the failure of the Anarchists to right the many supposed wrongs heaped upon the people.

### A Murderous Saloon Keeper.

COLUMBUS, Ohio, Feb. 17.—At Georges, a village ten miles from here, George Ryan, a saloon keeper, shot Molly Stephens through the neck, killing him instantly. The ball, after striking through Stephens' neck, struck Napoleon Suver, a bystander, wounding him severely.

### THEIR MARRIAGE A FAILURE.

Mrs. Burke Roche Wants a Divorce from Her Husband.

NEW YORK, Feb. 17.—Mrs. Burke Roche, the beauty whose marriage to the brother of Lord Fermoy, an Irish peer, nine years ago in London, was the cause of its royal magnificence, will soon sue her husband for divorce. It is believed, Mrs. Roche is the daughter of a Frank Work, a millionaire stock broker. The couple lived in England. Burke Roche depended on his father to maintain the household. His inconstancy was common gossip. Burke's excesses finally became so flagrant that Mrs. Roche returned to America with her three children. She lived with her father on Madison Square. A few months ago she went to Wilmington, N. J., where she has taken up her residence. Rumor says that she will make Wilmington her domicile in order to make herself eligible for divorce through the Legislature.

### TO BUILD HIS TABERNACLE.

Talmage Has Fallen on a New Plan to Raise a Church Fund.

NEW YORK, Feb. 17.—The Rev. Dr. Talmage has laid before his congregation his plan for raising funds to rebuild the Tabernacle. This is the first of a series of editorials in a religious weekly paper. This paper will contain his sermons and other matter from his pen besides general religious literature. It has been arranged that the great receipts from subscriptions to this publication of \$1.50 each for the current year shall be turned over to the Tabernacle building fund to the extent of 150,000 subscriptions, if that number can be obtained. Dr. Talmage declared that the result would show whether the people really wanted him to preach in Brooklyn. If they did they would build a church for him to preach in. If they didn't they wouldn't.

### MANY LIVES LOST AT SEA.

No Doubt That the Steamer Dubury Went Down with All on Board.

SAN FRANCISCO, Cal., Feb. 17.—Sydney papers report the arrival there Jan. 5 of the vessel that made a fruitless search for the large passenger steamer Dubury, which it was feared had foundered in the recent typhoon in China Sea. No trace of the missing vessel was found, and there is now no doubt that she sunk with her 400 Chinese passengers and crew. The only traces of her ever seen were floating bundles of rattan that formed part of her cargo.

### Small-Pox Along the Rio Grande.

SAN ANTONIO, Tex., Feb. 17.—Late reports from the small-pox districts along the Rio Grande show an appalling mortality list. On a ranch in Duval county 147 out of 150 employed were stricken with the disease and sixty-five of them died. There is a great scarcity of nurses and physicians. A number of the younger doctors of this place are preparing to visit the afflicted section.

### An American Schooner Gone Down.

LONDON, Feb. 17.—The British schooner Noble, from the Gilbert group of islands, reports that the American schooner Turdon was capsized during a gale and foundered. Her crew are in Butarri Island.

## THOSE RAILROAD DEBTS.

## REPORT OF THE SENATE COMMITTEE ON THE TWO PACIFICS.

The Union Pacific in a Fair Way to Pay What It Owes—The Central.

WASHINGTON, Feb. 17.—The Senate special committee on Pacific railroads, after many hearings, thorough investigation, and careful consideration, has finally accepted the report of Senator Frye on the Union Pacific and that of Senator Davis on the Central Pacific, and has agreed on a bill providing for a refunding of their debts.

The report on the Union Pacific reaches the conclusions that there is no evidence of any purpose on the part of the company to surrender the portion of its road over which the government has a statutory lien; on the contrary there is every reason tending to satisfy any candid person that no such purpose exists, that it is a capable, well managed road, abundantly able to pay its debts, requiring only, like any other railroad, time in which to pay; that the interests of the government and of the way company will be promoted by a settlement, and that one can be made now under which every dollar of the government debt with interest will be paid.

The report on the Central Pacific finds that the United States has for security a statutory lien on a road commencing at a point five miles west of Ogden and extending to San Jose, without terminal facilities at either end, made subject to mortgage to secure bonds equal in amount to the original indebtedness of the United States. That the present security of the United States upon this property is entirely inadequate; that the foreclosure of the first mortgage would substantially exhaust, in satisfaction thereof, the entire property; that it would be inexpedient for the United States to redeem it from said first mortgage or to become the owner of the property through redemption and foreclosure.

The report finds that it is expedient, necessary, and practicable to adjust and further secure the indebtedness to the United States upon the extended time at a reduced rate of interest within the ability of the company to pay, upon such terms as to advance the development of the country through which the roads pass and to afford the inhabitants thereof reasonable rates of transportation for passengers and freight.

From the report it appears that the Central Pacific has not an ability to pay at all equal to that of the Union Pacific, but under the terms of the bill to be reported can make final and full payment reasonably certain.

**NEW PAYMASTER-GENERAL.**

Vacancy Created by the Retirement of William B. Rochester.

WASHINGTON, Feb. 17.—Paymaster-General W. B. Rochester of the army is 64 years to-day, and will celebrate the event by retiring from office. He has been at the head of the pay department of the army for three years, and has in that time earned a reputation of being an extremely efficient, faithful, and painstaking accounting officer. His retirement will call for the appointment of a new paymaster-general.

Among the most prominent candidates mentioned for the office are Col. Rodney Smith and William A. Backer, both at the head of the list, and Majors William E. Gibson, Charles M. Terrell, and Asa R. Carey. Knowing ones pretend to say that the struggle lies between Terrell and Carey. The former is an Indian and is an acquaintance of the President of long standing. The latter is the husband of Secretary Proctor's niece.

**WILL SUE FOR \$700,000.**

Uncle Sam After the Directors of the New Orleans Exposition.

WASHINGTON, Feb. 17.—The Attorney-General has decided to instruct the United States district attorney at New Orleans to bring suit against the directors of the Southern exposition held in that city in 1884-5 for an unpaid balance of \$700,000 of the \$1,500,000 loaned by the government. The directors are among the most influential and wealthy men of the city—bank presidents, merchants, and commission men, worth together \$5,000,000 or \$6,000,000—so that judgments be obtained the money can be collected.

**THE CROP MAY BE SHORT.**

Ice-men Alarmed Over the Warm Weather at Lake Winnebago.

OSHKOSH, Wis., Feb. 17.—The warm weather of the last few days has put a damper on the operations of the ice-men in this city. They are nearly a score of firms from Milwaukee, Chicago, and other cities operating on Lake Winnebago at this point, and during the last few weeks over 200 carpenters have been kept busy in the erection of ice houses. The ice is now less than a foot thick and is decidedly "rotten." Some of the operators have handled the ice in sacks or swaths instead of with the ice tongs, to prevent its breaking up on the way into the houses. The John T. Mix company of Chicago has 40,000 tons of ice in one of their houses, and another building of the same size nearly full, but no other company has much ice housed. Unless extremely cold weather sets in very soon the loss to the ice-men will be very large.

**The Westminster Confession to Go.**

NEW YORK, Feb. 17.—The general tenor of advice to date makes it morally certain that a majority of the Presbyteries will favor a radical revision of the Confession of Faith. It is equally certain that the minority will accept the suit, and that all the talk of a split or schism is founded upon anything but facts. Nothing can of course be done until the next meeting of the general assembly, but in the meantime the theologians of the church will put their heads together and agree upon the main points of the revision process.

**THREE PEOPLE KILLED.**

Terrible Accident on the Baltimore & Ohio at Beardsboro, Ohio.

TIFFIN, Ohio, Feb. 17.—Word was received here this morning that a terrible accident had occurred on the Baltimore & Ohio road at Beardsboro. Three people are reported to have been killed in the wreck.

**Marion Harland.**

The celebrated authoress, so highly esteemed by the women of America, says on pages 103 and 445 of her popular work, "Eve's Daughters, or, Common Sense for Maids, Wives and Mothers."

"For the so-called back-shoulder is slow in recovering its normal strength—an Allcock's Pore Plaster is an excellent remedy, combining the sensation of the continued pressure of a strong warm band with certain tonic qualities developed in the wearing. It should be kept over the most unresponsive for several days—in obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Allcock's Pore Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the sitting becomes painful."

Beware of imitations and do not be deceived by misrepresentation. Ask for Allcock's and let no solicitation or explanation induce you to accept a substitute.

## IT SHUTS UNCLE SAM OUT.

## A BRITISH COURT DECIDES A BEHRING SEA DISPUTE.

The United States Held to Have No Jurisdiction Outside the League Limits—Foreign News.

VICTORIA, B. C., Feb. 17.—Justice Drake of the British Columbia Supreme Court has just rendered a decision which declares that the government of the United States has no jurisdiction over Behring sea outside of the marine league limit. The question came before the court in a civil suit brought by Henry Baxter of Seattle, Wash., against Solomon Jacobs, of Victoria, for violation of a sealing contract.

Jacobs is the owner of the schooners Mollie Adams and Webster. In January, 1889, Jacobs contracted to sell to Baxter in Seattle, at a stipulated price, all the seal skins taken by two vessels during that year. The schooner Webster was lost in a storm, but in April, 1889, the Mollie Adams delivered her season's catch to Baxter. A verbal agreement was then entered into by Jacobs and Baxter to the effect that the Mollie Adams was to return and take seal in Behring sea and deliver the skins to Baxter at a stipulated price. The Adams went to Behring sea and returned last November, but instead of delivering the skins to Baxter, Jacobs sold them in Victoria. Baxter then brought suit against Jacobs for damages by breach of contract. The defense held that the contract was not valid, as sealing in Behring sea was in violation of the United States statutes and called Mr. Johnson of Port Townsend as a legal expert to testify to the effect that the American law relating thereto. He read sections of the statutes governing such cases, the amendments enacted by Congress in 1889, and the President's proclamation.

The court, however, decided that the contract was valid and refused to recognize the jurisdiction of the United States in Behring sea outside of the marine league from shore of America's territory. It was held that the law existing where the contract was made had no bearing in court. Baxter was awarded \$4,161 damages, both defendant and plaintiff are American citizens and the schooner is an American vessel.

## WILL BISMARCK RETIRE.

Intimation That the Kaiser and His Chancellor Will Separate.

BERLIN, Feb. 17.—It is said Bismarck's retirement will be an event of the near future, the young Emperor proposing henceforth to be his own chancellor.

It is reported that Bismarck refers frequently to the joy he anticipates in passing the last years of his life among the rural delights at Schonhausen. The Kaiser also says that his husband is now more interested in turnips than politics.

It is well known, however, that Bismarck's ambition has long been to see his son, Count Herbert, succeed him. Count Herbert, it is said, is anxious to remain sufficiently near the scene of action to pull the strings that move the puppets. Certain it is that the word "never," once written at the bottom of the Chancellor's application to be allowed to resign by Kaiser William I. will not be appended to a similar document by his grandson.

## BOULANGISTS ELECTED.

Followers of the Erratic Frenchman Vote in Great Numbers.

PARIS, Feb. 17.—Elections have just been held in a number of French departments. The results of the elections are as follows: Naquet, Boulangist, whose election was quashed by the chamber, again heads the poll in one of the Seine departments. In the other department, M. Boulangist is re-elected. Boulangists Goussot, Revest, and Laure are re-elected in three divisions of St. Denis.

Boulangist, re-elected in the first division of the Seine, receiving 11,022 votes against 9,827 for Goblet. M. Le Baudy and M. Lasserre, Republicans, have been elected for Marais-sur-Seine and Castel-Sarrasin, respectively, in place of their deceased fathers. In Ajaccio M. Ceccaldi, a Radical, is elected, defeating a Conservative who was returned at the general elections but whose election was quashed.

## SANDWICH ISLAND ELECTION.

A Sweeping Victory for the National Reform or King's Party.

SAN FRANCISCO, Cal., Feb. 17.—The steamer Zelandia, from Australia and Honolulu, brings the news of the general election which took place in the Hawaiian Islands on the 15th inst. The result was a sweeping victory for the King's party, or, as it is termed, the National reform party, and the overthrow of the existing administration. One of the main objects accomplished is the abolition of the present constitution and restoration of the constitution of 1865, which practically means the restoration of an irresponsible government. The islands of Oahu, of which Honolulu is the capital, returned sixteen nobles and representatives out of seventeen for the entire island. R. W. Wilcox, who headed the revolt against the government last July, was elected.

## PEDRO FOR PRESIDENT.

Movement in Brazil to Place Him at the Head of the Republic.

PARIS, Feb. 17.—A close friend of Dom Pedro says he has received a letter from Brazil announcing that the movement to place Dom Pedro at the head of the republic is strengthening and spreading. The Emperor has been informed of the intention of his friends and they await the consent of the Emperor. The Emperor has already expressed his willingness to return to Brazil in any capacity, public or private, it being his supreme desire to be allowed to die among his people.

## Death of Sir Robert Kane, M. D.

LONDON, Feb. 17.—Sir Robert Kane, M. D., is dead. He was born in Dublin in 1810, where he received his medical education. In 1847 he was awarded a prize by the Royal Irish academy for his discovery of chemistry. He afterward became president of the Queen's college of Cork, and in 1889 he was appointed a member of the senate of the Royal University of Ireland. He was also a member of the board of national education for Ireland.
